

Designer Collection

Foreword

Wellness viewed in a holistic way is of great interest and importance for many people today. From the beginning, promoting wellness for individuals and improving the quality of their lives has been the focus of MTI in the design and function of its products and therapies. Products must be beautiful and therapies state-of-the-art, but all must be therapeutic in their function.

MTI's Designer Collection tubs in DoloMatte or Acrylic CXL offer the broadest availability of therapies.

MTI prides itself on manufacturing the highest quality bathing products, backed by world-class customer service.

The following pages contain only a sampling of MTI Designer Collection products. Go to mtibaths.com for additional products, detailed specifications and pricing.

The Designer Collection

AWARD-WINNING DESIGNS

In the last two decades MTI has been recognized with more than 160 awards for design excellence and product innovation. Testimony to our philosophy of design with purpose.

ULTIMATE IN PERSONALIZATION

With every MTI product made to order, you have the possibility of creating your own highly personalized bathing experience with many therapy choices, options and even component placement.

CHOICE OF MATERIALS

For a choice of design, look and feel, you can choose from products fashioned in DoloMatte or Acrylic CXL.

MTI WELLNESS™

Promoting wellness for individuals and improving the quality of lives has always been the focus of MTI. Here you will find the largest selection of water and sensory therapies for wellness.

MADE IN THE USA

All Designer products are proudly made in the USA, handcrafted by artisans and manufactured to the highest quality standards.

EXTENSIVE COLLECTION

There are so many different designs, styles, shapes and sizes from which to choose. Freestanding, drop-in, undermount and alcove tubs to satisfy personal preference and setting. Go to mtibaths.com to view the entire collection.

Therapies for Wellness™

MTI is a recognized leader in delivering effective water and sensory therapies that foster wellness.

THERMAL THERAPY

Heat soothes and relaxes. Keep your water hot longer with an inline heater that will maintain your water temperature at 104°F. You can also warm the tub's backrest and floor with radiant heat.

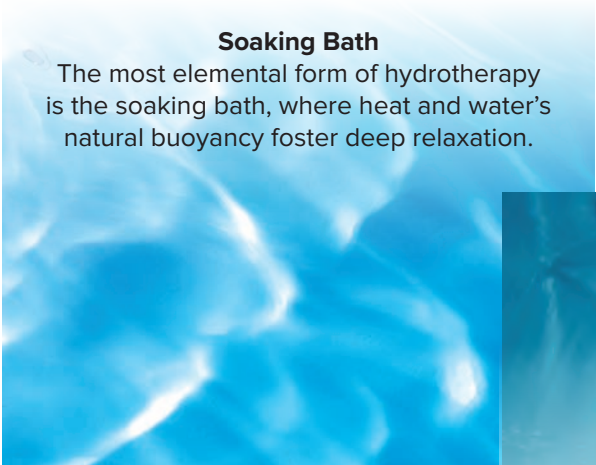

AROMATHERAPY

This ancient therapy uses natural aromatic essences to promote holistic health. Most MTI air bath systems for drop-in tubs include a built-in aromatherapy diffusion system that delivers the aromatic essences through the air bath bubbles.

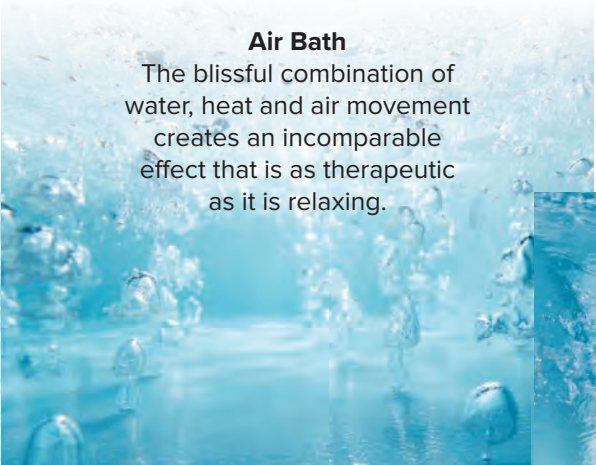

Soaking Bath

The most elemental form of hydrotherapy is the soaking bath, where heat and water's natural buoyancy foster deep relaxation.

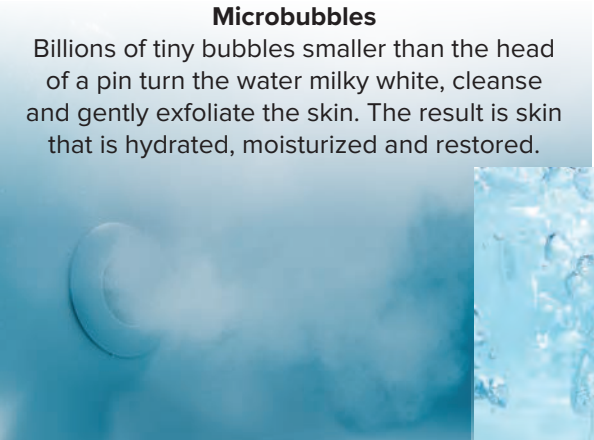

Air Bath

The blissful combination of water, heat and air movement creates an incomparable effect that is as therapeutic as it is relaxing.

Microbubbles

Billions of tiny bubbles smaller than the head of a pin turn the water milky white, cleanse and gently exfoliate the skin. The result is skin that is hydrated, moisturized and restored.

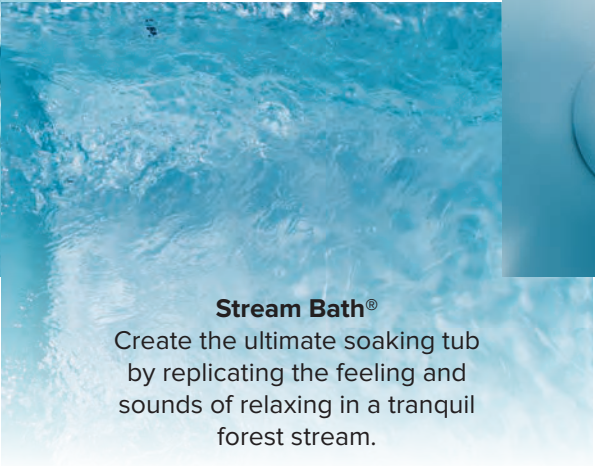

Whirlpool Bath

Enjoy the power of a deep, penetrating massage. This type of hydrotherapy comes from strategically placed jets that may be targeted to specific areas of the body.

Stream Bath®

Create the ultimate soaking tub by replicating the feeling and sounds of relaxing in a tranquil forest stream.

Combination Baths

MTI enables you to personalize your wellness regimen by combining multiple water and sensory therapies.

CHROMATHERAPY

Light and color affect human bio-rhythms and life equilibrium. Most MTI baths offer the possibility of including the therapeutic effects of chromatherapy through the use of underwater lighting provided by digitally controlled LEDs.

AUDIOTHERAPY

Audiotherapy uses our sense of hearing to relieve stress and foster relaxation. The sounds of gently flowing water are soothing, but you can also use the power of music to relax. With Stereo H₂O you will not only hear but actually feel the sound through your body as it travels through the water.

PARISIAN ♦ 2 models available 66" and 72" in length ♦ shown in DoloMatte

Freestanding Tubs

If you are looking to create an outstanding master bath, select a freestanding tub. It will be the centerpiece and focal point of your bathroom.

The Designer Collection offers over 80 different models to complement and accent traditional, contemporary and transitional design motifs. A wide variety of styles, sizes and shapes available in velvety-soft solid surface DoloMatte or glossy Acrylic CXL. Most available as a soaker or with air bath, along with chromatherapy and thermaltherapy.

♦ DoloMatte®

The latest material addition to MTI's Designer Collection. It offers luxurious design aesthetics and an exquisite matte finish with a velvety-soft touch and feel.

DoloMatte is a true solid-surface material. A specialty polymer blended with ground minerals undergoes a multi-step process that includes thermoforming, additional strengthening and hand finishing.

♦ Acrylic CXL®

The finest grade of sheet acrylic available in the world: cross-linked continuous cast acrylic. It undergoes a multi-step process that includes thermoforming, additional strengthening and hand finishing.

Both materials are American-made. The surfaces are non-porous, durable and impact/shock resistant. Also UV-, stain-, mold- and mildew-resistant. Easy to clean and maintain.

Designer Collection freestanding tubs are available in DoloMatte or Acrylic CXL, with the exception of the Jasmine.

LANEY ♦ 2 models available 65" and 72" in length

ADEL ♦ 4 models available from 57" to 68" in length without integrated faucet deck ♦ shown in DoloMatte
Also available with faucet deck

JASMINE ♦ 52" round

MADELYN ♦ 2 models available 66" in length ♦ 1 with integrated faucet deck and one without

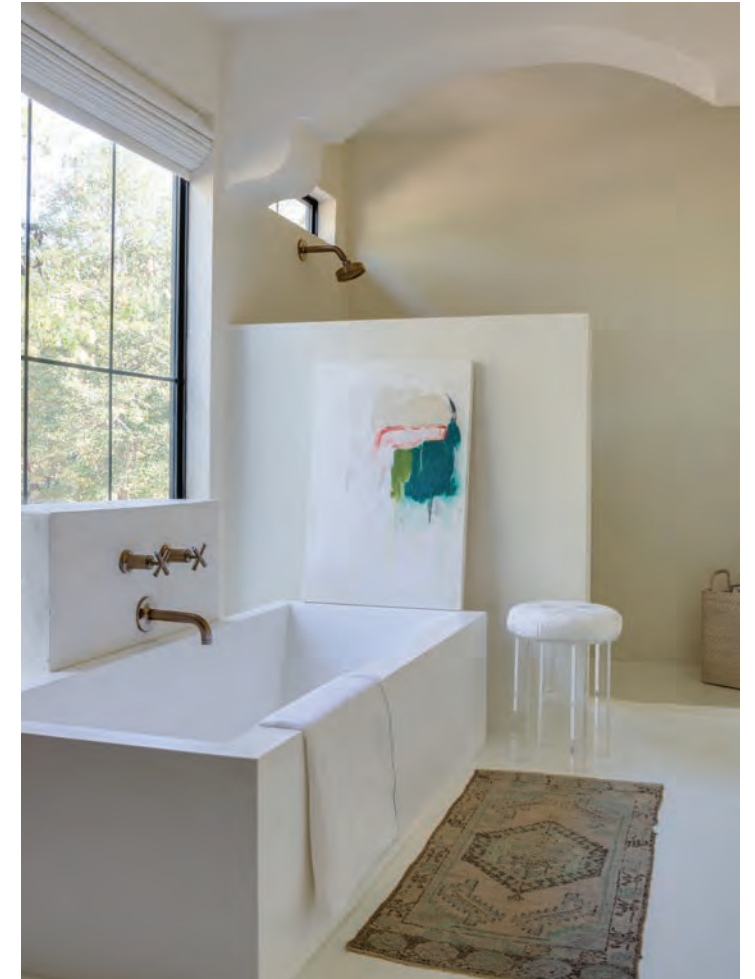

ANDREA ♦ Tub shown with 3 sides Sculpted Finish ♦ 26 sizes available

MTI's Sculpted Finish® Customization Process

At MTI, Sculpted Finish® describes both a look and a process. The look is seamless, as if the tub were hand-molded out of a single piece of material. The process involves a series of painstakingly detailed steps, all performed by hand by the craftsmen at MTI.

MTI inventiveness allows individuals to craft their own one-of-a-kind tub in velvety-soft DoloMatte or glossy Acrylic CXL. The Andrea®, Kahlo and Metro drop-in tubs may be ordered with Sculpted Finish on one, two or three sides, or even four sides to create a freestanding tub.

MTI's Sculpted Finish technique can also be applied to other square, rectangle and corner drop-in tubs on special order.

METRO ♦ 3 models available from 60" to 72" in length ♦ shown with 4 sides Sculpted Finish

Drop-In, Undermount and Alcove Tubs

If you are looking for a bathing vessel that will be your in-house Hydrotherapy Spa, look no further. Every tub is built to order. MTI's Designer Collection offers more than 150 models available for drop-in, undermount and alcove installations. You can take advantage of the industry's largest assortment of hydrotherapy and sensory therapy options for wellness. Available in velvety-soft solid surface DoloMatte or glossy Acrylic CXL, the finest in the world.

♦ Acrylic CXL®

The finest grade of sheet acrylic available in the world: continuous cross-linked cast acrylic. It undergoes a multi-step process that includes thermoforming, additional strengthening and hand finishing.

♦ DoloMatte®

The latest material addition to MTI's Designer Collection. It offers luxurious design aesthetics and an exquisite matte finish with a velvety-soft touch and feel.

DoloMatte is a true solid-surface material. A specialty polymer blended with ground materials undergoes a multi-step process that includes thermoforming, additional strengthening and hand finishing.

Both materials are American-made. The surfaces are non-porous, durable and impact/shock resistant. Also UV-, stain-, mold- and mildew-resistant. Easy to clean and maintain.

Most Designer Collection drop-in, undermount, alcove and customizable Sculpted Finish® tubs are available in DoloMatte or Acrylic CXL. Please see individual product pages at [mtibaths.com](https://www.mtibaths.com) for availability and details.

LANEY ♦ 2 models available 65" and 72" in length

CAYMAN ♦ 6 models available from 54" to 72" in length

Personalize your wellness regimen with an array of possibilities

SENSORY THERAPIES

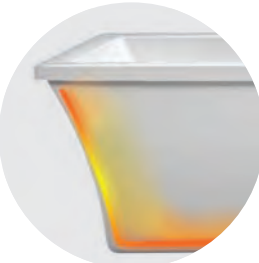

AROMATHERAPY
This ancient therapy uses pure aromatic essences naturally extracted from plants to harmonize and promote health of body, mind and spirit. Most MTI air bath systems for drop-in tubs include a built-in aromatherapy diffusion system.

AUDIO THERAPY
Our sense of hearing can also contribute to promoting wellness. The sounds of a gently flowing stream are certainly soothing, but music can also be a great relaxer and de-stresser. MTI's Stereo H₂O integrates electronic transducers into the bath shell, so the bather not only hears the sounds but also feels the music. Available with transducers only or with bluetooth amp.

CHROMATHERAPY
For centuries, light and color have been recognized as having an effect on human bio-rhythms and life equilibrium. Most MTI baths offer the possibility of including the therapeutic effects of chromatherapy through the use of underwater lighting provided by digitally controlled LEDs.

THERMAL THERAPY
Dating back to 500 BC, heat has been used to soothe, quiet and relax the body. MTI's Radiance[®] is a bath surface heating system that applies radiant heat to the interior surface of the tub to enhance bather comfort.

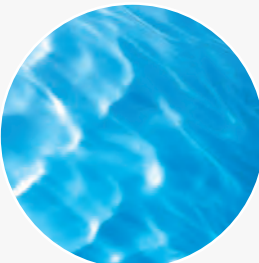

WATER THERAPIES

AIR BATH
An air bath provides a gentle, full-body massage that is restorative and relaxing. Millions of tiny bubbles envelop the bather to increase circulation, relax, cleanse and detoxify. Two levels are available. Air Massage Elite includes Spa Mode, with 3 pre-programmed settings that sequence through various combinations of therapies.

MICROBUBBLES
Microbubbles super-saturates the water with up to 50% more dissolved oxygen. Billions of the tiniest bubbles are released in such a density that the water turns milky white. The skin is cleansed and gently exfoliated, feeling soft, smooth and supple.

SOAKING BATH
A simple soaking bath is the most elemental form of hydrotherapy where heat and the water's natural buoyancy foster deep relaxation.

STREAM BATH[®]
Stream Bath creates the ultimate soaking tub by replicating the feeling and sounds of relaxing in a tranquil forest stream.

WHIRLPOOL BATH
This hydrotherapy utilizes a mixture of water and air that is propelled toward the bather through jets. It provides a deep, penetrating massage to relax sore muscles and soothe aching joints. Two levels are available. Most Ultra Whirlpool packages include Ozone, micro-jets and Tsubo Massage, a gentle Shiatsu-like back massage.

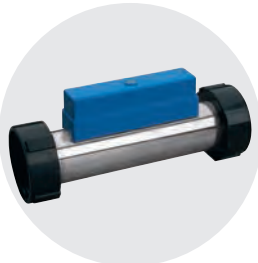

COMBINATION BATHS
Multiple water therapies can be combined in the same tub, such as air / whirlpool, air / stream bath, air / microbubbles.

SELECT OPTIONS

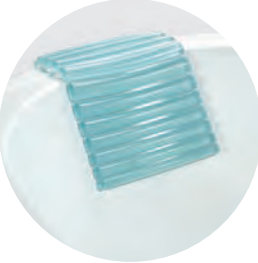

FAUCET STANDS
Accommodate deck-mounted faucetry. Available in 2 sizes: 3-hole and 5-hole capacity. Constructed in SculptureStone.

INLINE HEATERS
Inline heaters are available for soakers, air baths and whirlpools. These systems do not heat cold water but maintain bath water temperature at 104° F.

OZONE
The bath Ozonator, available in MTI whirlpool and Stream Bath tubs, is a safe, effective and natural bath sanitation system that works while the user is enjoying the whirlpool or Stream Bath.

PILLOWS
Bath pillows provide support for head and neck. Four styles are available. All are removable. The Roll-Up pillow shown is the most versatile because it can be rolled up for lumbar area or under legs.

SLIM-LINE OVERFLOW WITH TOE-TAP DRAIN
Sleek, low-profile overflow offers a clean appearance. Different finishes are available. Overflow is factory-installed and applicable only to specific tubs.

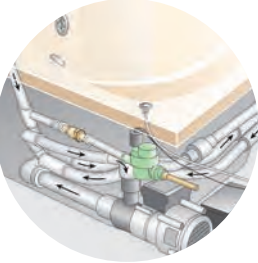

VIRTUAL SPOUT
The High-Flow Virtual Spout offers a discreet replacement for a filler spout. It is factory-installed on an inside wall of the tub. Helps provide an uncluttered appearance and removes the potential obstacle of a filler spout where that may be a safety concern.

GRAB BARS
Grab bars enhance accessibility and safety within and around the tub. They are available for most models of tubs, and they may be added to the flat inner wall of the tub. Choose curved acrylic or curved metal. The top-mounted model shown is available for drop-in tubs with a flat rim.

TILE FLANGES / ABS
Available on most rectangular and corner baths. Whether factory- or field-installed, the rigid ABS tile flange is chemically bonded to the tub to ensure a watertight installation between the top tub surface and the surrounding wall area.

WHIRLPOOL CLEANING SYSTEMS
MTI's patented Fill-Flush[®] and Simple Touch[®] cleaning systems are the best on the market. Designed to keep your whirlpool clean and hygienic, both systems circulate cleaning solution and fresh water through the entire plumbing system in less than 5 minutes and with less than 10 gallons of water.

PRE-LEVELLED FRAME SYSTEM / FOAM BASE
Frame of hardwood construction makes installation easy. High-density, closed-cell foam supports the bottom of the pre-leveled tub. Front or sides of the frame may be recessed for tile or marble application. Available on rectangular and corner tubs.

Teak Accessories for Showers and Tubs

The Designer Collection includes a wide assortment of tubs and shower bases in a variety of styles and sizes. And for both accent and function, MTI also offers a range of teak products for the bathroom. All are manufactured in the USA using only 100% legal, FEQ (First European Quality), sustainable teak. Crafted in the finest grades of genuine teak, MTI's teak products introduce an organic element to the bathroom that is both soothing and stylish. The teak texture and warmth also contribute to a spa-like feel.

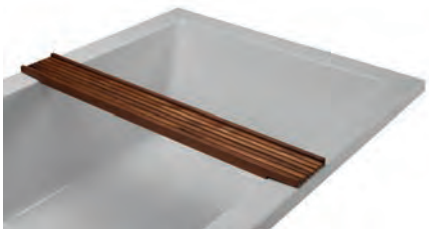

PREMIUM SHOWER SEAT
Features 1" wide x 2" thick teak slats and a heavy duty 11-gauge tubular stainless steel frame in Natural or High-Polished finish. 24" x 16"

BATH MAT AND SHOWER TRAY
Both available in a variety of sizes.

HIDDEN DRAIN COVER
Designed for MTI's multiple-threshold shower bases with hidden drain.

TUB TRAY
For book or beverage. Custom fit for flat-rimmed rectangular tubs. Slatted version shown. Also available in a solid, one-piece design.

FEATURES AND BENEFITS OF MTI GENUINE TEAK ACCESSORIES

- Genuine teak has the natural ability to **ward off fungi, mold and mildew.**
- Teak **withstands the wet environment** of the bathroom.
- **Emits a slight teak aroma** while showering.
- **Variety of teak shower seats and trays** available.

Laundry Sinks

Designer laundry sinks are both practical and beautiful. And MTI's patented jetted laundry sinks use jets instead of an agitator to wash fine wearables. Drop-in and undermount models are available. Available in velvety-soft white DoloMatte or glossy white or biscuit Acrylic CXL.

Our Credentials

Below are only some of the awards that MTI products have achieved over the years for design excellence and product innovation.

Our Story

By consistently listening to the market and embracing change, MTI has thrived. MTI is the first company in the USA to launch a full bath product line in true solid-surface. Some of our most important innovations include the most hygienic air bath systems and patents on the Fill-Flush® cleaning system and Gentle Jet® laundry system. MTI was also a leader in moving the industry to be design-driven and, through its Woodward Mill House, created the most creative, exciting and experiential training program in the industry.
